

NextMD Patient Portal

Dear Patient,

We would like to introduce you to a helpful program called Patient Portal that you may consider signing up for to improve your experience with our office and your care. Patient Portal allows you to:

- Receive results, such as labs, radiology, or any other testing directly through your device
- Conveniently communicate with a provider about any personal or medical questions
- Educate yourself concerning a variety of health concerns
- Read in English and/or Spanish
- Keep track of multiple providers you may be seeing

...all without having to visit or call the physician's office! Through this **secure portal** you will also have access to multiple providers, should you need to see a specialist for your medical care.

During your appointment today you will have the opportunity to sign up by filling out the information at the bottom of this form. You will then be given a token number by one of our medical assistants and directions with what to do next. We encourage you to sign up for this helpful service that can greatly improve the convenience and communication between our office and you.

It is important to note that this program is not for urgent medical conditions, although we can provide advice on what to do in certain situations. For emergencies, please visit your nearest Emergency Room or Urgent Care.

Name: _____

Date of Birth: _____ Cell (_____) _____ - _____

Email Address: _____

Primary Care Physician: _____

Patient Signature: _____ Date: _____

To provide the best possible patient experience, you may receive a patient survey request via text, email, or phone within the next 24 hours. Responses are confidential and secure. We appreciate any feedback that can help us improve patient care.
